Full Stack Developer
- Selected as one of 3,157 accepted participants from a pool of over 60,000 applicants.
- Recognized among the top 600 most active students in Instructor-Led Training sessions for tech and soft skills.
- Ranked among the top 5 students with the highest engagement in weekly consultation sessions.
- Developed a culinary exploration website as a Capstone Project Foodinary.

Bangkit Academy led by Google, Tokopedia, Gojek, & Traveloka – **Online Bootcamp**   **Aug 2024 – Jan 2025**
Android Developer
- Selected as one of 4,636 accepted participants from a pool of 45,851 applicants.
- Graduated with Distinction (Top 10% in the Learning Path) with a clean record.
- Recognized among the top 1,000 most active students in Instructor-Led Training sessions for tech and soft skills.
- Ranked among the top 5 students with the highest engagement in weekly consultation sessions.
- Developed a skin disease detection application as a Capstone Project DAISY.

Experiences

PT Edukarir Global Nusantara – **Remote Internship**   **Feb – May 2025**
Software Engineer
- Designed core features for the RBB Try-Out platform with a focus on UX and scalability.
- Developed and deployed an auto-certificate generator for 350+ users.
- Improved backend performance and reduced manual tasks.

Information System Department at UIN Suska Riau – **Pekanbaru, Indonesia**
Website Administrator   **Dec 2023 – Jan 2025**
- Maintained website with 100% uptime and improved structure.
- Published 30+ updates to keep students informed.
- Enhanced accessibility and resolved issues, reducing errors by 30%.

Laboratory Assistant   **Oct 2023 – Dec 2024**
- Served as a Practicum Assistant for the Computer Network Management course.
- Handled and managed networks to ensure optimal connectivity.
- Managed 66 computers and 5 active switches across 3 laboratories to ensure smooth hardware operations.
- Managed laboratory software, ensuring updates and functionality for tools like SSE UMPTKIN, Visual Studio Code, NetBeans, Cisco Packet Tracer, VirtualBox, XAMPP, and more.

Full Stack Developer – Project Based Internship   **Jan – Sept 2024**
- Developed the Laboratory Assistant Registration System (LARIS) as part of a practical work internship project.

PT Telkom Indonesia (Persero) Tbk – **Pekanbaru, Indonesia**   **Jul – Dec 2021**
Customer Relationship Management
- Managed customer data and acquired 100+ customers during the internship.
- Handled customer calls, providing product info, billing assistance, and technical support.
- Resolved issues, managed complaints, and offered modem upgrades for improved internet speed.

Projects

Foodinary – [Repository](#)   **Oct – Dec 2024**
Front End Developer
- Developed an AI-powered website using to identify traditional Indonesian cuisine from food photos.

- Initiated the project from scratch by designing scalable folder structures and setting up the development environment.
- Built a user-friendly website interface by slicing UI/UX designs into functional layouts.
- Integrated APIs and utilized IndexedDB for offline data storage.
- Key features include account management, AI-based detection, favourites, and user profiles.

Dermatological AI System for Your Skin (DAISY) – [Repository](#)   **Oct – Dec 2024**
Android Developer
- Built a user-friendly Android interface based on UI/UX designs.
- Integrated a deep learning model with 74% diagnostic accuracy.
- Key features include account management, AI-based detection, image cropping (UCrop), and user profiles.
- Improved access to early skin disease detection via mobile technology.

Laboratory Assistant Registration Information Systems (LARIS) – [Demo](#)   **Jan - Sept 2024**
Full Stack Developer
- Reduced manual paperwork by over 80% while streamlining administrative tasks and improving data accessibility for better decision-making through digital exam and selection tracking.
- Key features include Authentication, Online Exams, Selection & Exam Management, and News Posting.
- Built using PHP and the Laravel framework and successfully deployed on UIN Suska Riau's campus server under the official [uin-suska.ac.id](#) subdomain.

Organizations

Information System Networking Club Research – UIN Suska Riau   **Dec 2022 – Present**
Research and Scientific Publications Division
- Deepened knowledge in computer networking, web, and app development through club activities and research.
- Contributed to research and publications on information systems and networking.
- Assisted in organizing research activities and publishing technical papers within the club.

Google Developer Student Clubs – UIN Suska Riau   **Nov 2022 – Oct 2024**
Member
- Actively participated in Google Developer Student Clubs activities and events.
- Collaborated with peers on technical projects and initiatives to enhance development and programming skills.

Committees

Chairperson – Bakti Sosial ISNC Research - [Documentation](#)   **Nov 2023**
- Led a program by coordinating over 12 committee members across 3 different divisions.
- Developed an event management approach, ensuring 100% alignment with objectives and increasing engagement.
- Presented on integrating Islamic values and ethics with modern technology for societal benefit.
